Descrizione vetrina

Sono un artigiano vetraio e da alcuni anni mi dedico alla vetrofusione, una antica e affascinante arte che grazie alle alte temperature permette la creazione di opere mai scontate, uniche e sempre diverse. Utilizzando vetro Desag e il pregiatissimo vetro Bullseye, cerco di portare avanti un percorso artistico al momento focalizzato sull'unione tra vetro,metalli e pietre, alla ricerca di qualcosa di originale ed esclusivo. Sono anche grafico e Virtual Designer, in linea di massima so destreggiarmi un po' avunque nel campo delle arti visive e non solo.
