Descrizione vetrina

All'età di 15 anni il primo scatto, per un compito assegnato a scuola, e da quel giorno l'obiettivo della macchina fotografica è rimasto il mio filtro verso il mondo, un modo per osservare la vita apprezzando forme e colori, una sfida quotidiana per catturare e rendere eterne musiche e profumi. Anni di lavoro intenso, sono trascorsi velocemente arricchiti da passione e speranze da rincorrere. E i sogni non facevano in tempo a diventare realtà che già si trasformavano in desideri inattesi, esperienze nuove ed orizzonti che si allargavano. Ad oggi, dopo oltre 20 anni di esperienza, continuo a scrutare il mondo con gli occhi del bambino che ero, consapevole dell'accaduto e curioso di quello che verrà per conferire sempre, ad ogni scatto, identità e originalità , stuzzicando desideri e intenzioni di chi sceglie l'immagine per comunicare pensieri.
